# Feeders designed for management simplicity

Pig feeders should help simplify the management of your pigs as they grow. With that goal in mind, Chore-Time's GENERATION 4™ Nursery, Wean-Finish and Finish Feeders have been designed to help you to save hours in clean-out and feeder adjustment time as well as to prevent feed waste. These dry feeders can be used in the center of the pen or as fence-line feeders.

## Product Features and Advantages

- Clearly-marked numerical index settings eliminate guesswork in making feeder gate adjustments – now featuring 16 individual settings for precision feeding.
- All sidewall flanges are formed outward for a stronger, easier-to-clean feeder.
- Feeder is manufactured from 304 Series stainless steel.
- More head space on all feeders.
- Metal edges are safety hemmed to minimize exposure.
- Less than nine seconds are needed to adjust feeder gates on entire feeder.
- Fewer bolts to work loose.

Patented Feeder Adjustment

## Improved trough design reduces waste and aids cleaning

Trough lip heights are sized for better pig access to feed – 4.25 in. (108 mm) on finisher and wean-finish models

Innovative Trough Profile for Finish and Wean-Finish Feeders

Reverse incline on feed trough lip helps prevent feed waste

Easy-to-clean feed trough lip flange also adds strength

V-shaped bottom drains feed-clogging moisture away from feed dispensing area

## Wean-to-finish feeders

Chore-Time's GENERATION 4™ Wean-Finish Feeders are designed for use in feeding pigs ranging in size from 15 to 320 lbs. (7 to 145 kg) and up to 10 pigs per eating space. These feeders offer the following additional features:

- 14-inch (356-mm) spacing is standard for all wean-finish feeders.
- Solid divider panels in feed trough reduce waste and increase durability.
- Rolled front edges on divider panels for pig comfort and added strength.

Part No. WEAN-TO-FINISH	Model*	Length		Width		Height		Feed Capacity**	
		Inches	mm	Inches	mm	Inches	mm	Pounds	kg

ST33048	FS-7	70.25	1784	16	406	34	864	396	180
ST32098	Drop Tube Holder for single-sided Finisher feeders								

\*Descriptions for model codes: **F** = Finisher, **S** = Single-sided feeding, **D** = Double-sided feeding, and **Numbers 3-7** = Number of feed positions per side.

\*\*Feed capacities are based on a density of 42 pounds per cubic foot (673 kilograms per cubic meter).

# Nursery feeders

Chore-Time's GENERATION 4™ Nursery Feeders are designed for use in feeding pigs ranging in size from 10 to 100 lbs. (5 to 45 kg) and up to five pigs per eating space on nursery feeders and six per eating space on tall nursery feeders. Early-wean guards are standard on all nursery feeders. Nursery fence-mount feeders are also available.
